Till next time, take care!**You may want to read more about: Here is a sample TV News script and Format of writing a TV News Script that I decided to share here after searching for one to no avail during my undergraduate media studies. This sample television-TV news script is what is normally used by news anchors when reading news. It is normally drafted after the news anchor has received news from all the reporters on the ground. A TV script comprises of 5 parts but the parts may differ depending on what the media house has to offer. Note that the TV news script does not include entirely what the reporter on the ground is going to report but a summary of it. Check that in the sample I have provided below **Format of writing a TV News Script** **Opening sequence-1 minute** This part comprises the news highlights and they are normally not included in a news script. You know what I mean by news highlights but if you don’t let me spare some time and explain to you. News highlights are normally a summary of what will be read in the entire news bulletin. **Part 1: News 12-14 minutes** This part comprises the trending news items that will be read by the news anchor. This part may contain about 5 to 8 news items depending on what the media house has to offer that day. Some days have more news than others. **Commercial break: 2-4 minutes** After reading news for about 12-minutes news anchors take a break to allow for advertisements to run. Most advertisers prefer advertising their services during this time because of the high number of viewers. **Part 2: News 12-14 minutes** This part comprises of other news items. They are normally not trending news. **Commercial Break: 2-4 minutes** After reading news for about 12-minutes news anchors take a break to allow for commercials to run **Part 3: Business news 4-8 minutes** Business news lasts for about 4-8 minutes but the time differs from one media house to another. **Commercial Break: 2-4 minutes** **Part 4: Sports News 4-8minutes** Sports news last for about 4-8 minutes but the time differs from one media house to another. **Part 5: Weather Updates** Not all media houses have weather updates so this section is not so necessary. **Sample tv news script** As indicated earlier TV scripts differ from one media house to another but this is the standard format of a TV news script. Check back for my next update of a sample radio news script and the format of writing a radio news script.
